

PKS 720 ID / 550 ID series

Self-propelled Aerial Platforms

PKS 720 ID / 550 ID series

The PKS 720ID: the most compact of the 140x78 series. The PKS 720 series aerial platform can be easily handled. It is light and with reduced dimensions. These characteristics make it be ideal for maintenance on plants and for picking use in the warehouses.

EN 280 CE CERTIFICATED, FOR INTERNAL USE WITHOUT WIND.

TECHNICAL DESCRIPTION

Speed: From 0 to 25 m/mins with movement at height

Controls: Cage supplied with all controls, check control, timer, key, lift/lowering, CCS and ICS safety systems, Electronic control of platform slope with automatic block, Acoustical movement device

Batteries: 2 130Ah 12Vdc batteries with reinforced plates

Battery charger: Portable, 220V, 50Hz, 15A, 24Vdc

Lift: Hydraulic system with motor 2KW, safety valve and emergency lowering system

Steering: Hydraulic system with motor 500W

Tower: Made of anodised aluminium, telescopic system with BACKLASH RECOVERY, FLEIER transmission chains, PLUNGING hydraulic cylinder, 12 sliding rollers for each tower with VRS

Turning circle: 2.5 m.

Slope surmountable: With closed machine, frontal 15%, lateral 5%

Traction: 2 x 500W engines 24V dc operated by 1 electronic circuit card with MOSFET technology and computerised energy recovery
